English

Nepali

## HOBBIES

- Drawing
- Researching

## PROFILE

I am a highly motivated and creative BSc CSIT student with a strong foundation in front-end development and UX/UI design. My passion lies in crafting visually appealing and user-friendly digital experiences. Through various personal and freelance projects, I have developed the ability to design and implement effective web solutions, paying close attention to detail and user needs. I am eager to apply my skills in a professional environment, where I can continue to learn, grow, and contribute to innovative projects. My goal is to bridge the gap between design and functionality, ensuring that every project I undertake not only looks great but also provides an exceptional user experience.

## EDUCATION

**Bsc. CSIT** Mar 2022 - Mar 2026  
National College of Computer Studies, Kathmandu  
Throughout my BSc. CSIT program, I have gained a comprehensive understanding of computer science fundamentals, including software development, database management, and networking. The curriculum has provided me with both theoretical knowledge and practical experience, particularly in frontend development and UX/UI design.

## EMPLOYMENT

### Freelance Web Developer & UX/UI Designer

Though I am currently unemployed, I have undertaken numerous college projects that have allowed me to apply my skills in frontend development and UX/UI design. I have independently designed and developed several websites and applications, focusing on user-centered design principles and modern web technologies. These projects have honed my abilities in HTML, CSS, JavaScript, and design tools such as Figma. Each project was an opportunity to solve real-world problems, create intuitive user experiences, and deliver high-quality digital products. My project work demonstrates my commitment to continuous learning and my readiness to contribute effectively in a professional setting.

## COURSES

Introduction to Front End Development

Feb 2024

UX/UI designing

Nov 2023

## CERTIFICATES

### Frontend Web Development

Completed an intensive course on HTML, CSS, JavaScript, and responsive design in coursera, focusing on building and deploying fully functional website.

### UX/UI Design

Earned a certification in UX/UI design, covering user research, wireframing, prototyping, and design principles aimed at enhancing user experience.

### Java Programming

Received certification for proficiency in Java, with a focus on object-oriented programming, data structures, and database connectivity.
